

Cloud Native Core System

INSTANDA operates exclusively as a Software-as-a-Service (SaaS) platform and can be seamlessly integrated with other platforms in the technology environment.

Break the mold with INSTANDA – a digital platform for the confident and innovative insurance professional.

INSTANDA's platform enables carriers and MGAs to create, build and implement complex insurance products in a matter of weeks or months.

Agility. Speed. Ease.

Make light work of developing insurance products. INSTANDA's digital platform allows users to build and distribute insurance products, all from the same platform, and is able to integrate seamlessly with other third-party software and providers.

INSTANDA takes insurers from concept, to creation, to launch, to revenue in exceptional timeframes.

About INSTANDA

Built for insurers by insurers, INSTANDA takes a modern approach to a complex industry. With a fully digital insurance management platform, INSTANDA enables carriers and MGAs to design, build and launch simple to complex insurance products, including common products like auto and home to more elaborate offerings like flood, earthquake, or cyber.

As the insurance space evolves, the elapsed time from product design to implementation is crucial to remaining competitive. INSTANDA empowers forward-thinking insurers to join the modern insurance revolution and go against the grain. Take the reins of transformation, capitalize on market opportunities and build products with full control, no limits, and shortened implementations.

Built for insurers by insurers
